

Professional Earth Test Kit

Electrode & Soil Resistivity stake and wire kit

- Can be used with any of the DET2/2 DET3 or DET4 Megger earth testers
- Easy wind reels
- Easy use, easy pack away
- Auger style spikes
- Tough storage case

DESCRIPTION

The Megger Professional Earth Test Kit is designed to be as practical as possible. Housed in a tough polyethylene carry case, the kit is stored neatly, well-protected and easy to transport.

In use the reels are fitted and retained on the spike handles, simply run out the test lead to the instrument and plug in, plug the other end directly into the spike, and test, easy. When the test is complete, unplug the test leads and wind them in, whilst still on the spike.

FEATURES AND BENEFITS

Auger Style Spikes

- Easy to twist into the ground.
- Easy to determine insertion depth.
- Test leads simply plug in.
- Knurled screw for connection of bare wire test cables.

Unique test lead cleaning brush mechanism

- Brush cleans debris off test leads as you wind them in
- Reduces likelihood of test lead tangles
- Less likely to "birds nest" when running out test leads.

What's in the kit?

- Cable reel - 50m red
- Cable reel - 50m black
- Cable reel - 30m yellow
- Cable reel - 30m green
- Earth electrode lead - 4m green, 4mm shrouded plug and large croc clip
- Auger style spikes - 4 off
- 50m Fibreglass measuring tape
- Carry case - moulded polyethylene
- Terminal adaptors supplied to allow connection to instrument fitted with terminal posts
